THE GREYSTONE

*Annual Publication of the Students of
the University of Saskatchewan
at Saskatoon*

ALBERTA GENEALOGICAL SOCIETY

NINETEEN HUNDRED AND FIFTY-FIVE

Foreword

THIS year the people of Saskatchewan celebrate the Fiftieth Anniversary of the formation of the Province. Such an occasion is one for rejoicing. But amid the rejoicing it is very fitting that we re-

member the men and women, the pioneers, who with faith and by hardihood laid the foundation for our present-day society. As Abram Joseph Ryan wrote "a land without memories is a land without history." The memories of this land are not the tortured and stained memories of violent and bloody years but rather they are the memories of hardship faced and overcome, of new and successful experiments in living together, of stern challenges and real achievements. The pioneers dedicated their plans and their toil to the future of their sons and daughters. In celebrating our Golden Jubilee we honour these pioneers; we give thanks for the bounties of the past, and we ask guidance for the future.

The University of Saskatchewan is very much a part of the provincial scene. It is in the broad sense a university of the people. Our university was built on faith and maintained in the belief that knowledge and freedom are essential to the full development of man. We are part of its great traditions. It is your responsibility, as it is mine, to maintain the ideals on which it was founded. As you celebrate the Golden Jubilee of our Province with prayers and with rejoicing, each of you will stir to a special memory. The spirit of these grey stone walls will invoke some responsive chord, dedicating part of your life today to the stirring world of tomorrow.

A handwritten signature in cursive script that reads "T. R. Douglas". The signature is written in dark ink and is preceded by a long, horizontal, slightly wavy line.

Premier of Saskatchewan

The President
W. P. THOMPSON,
M.A., Ph.D. D.Sc., F.R.S.C.

Faculty and

J. FRANCIS LEDDY

MARION BERJSAGEL

In Memoriam

HUGH CARSON

A Tribute

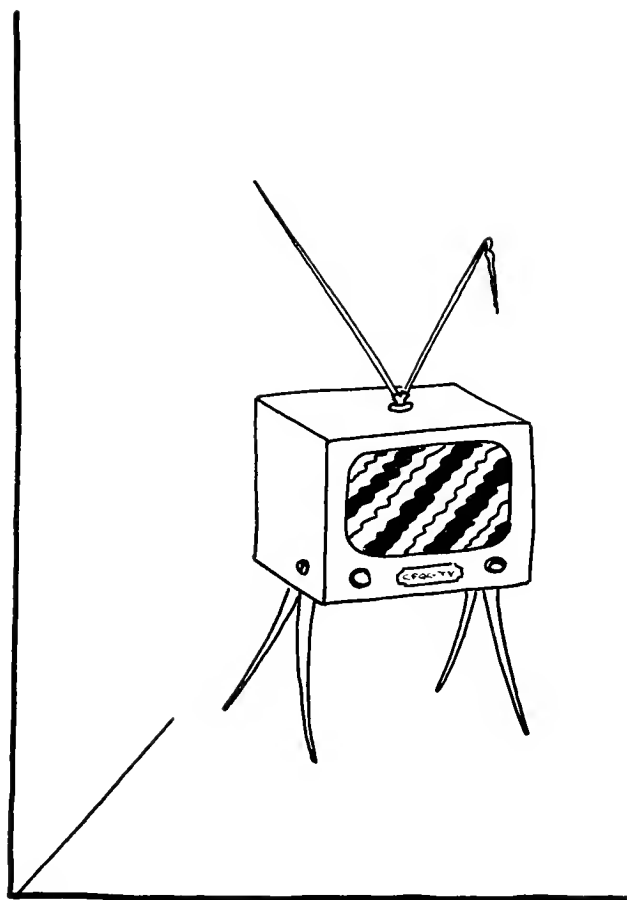

A well known figure on the campus, Hugh Carson, passed away on the twentieth of September, 1954.

As far back as 1926 he joined the staff of the University of Saskatchewan as Physical Education Instructor, and over the years grew to be almost as much a part of the University as the Greystone colleges.

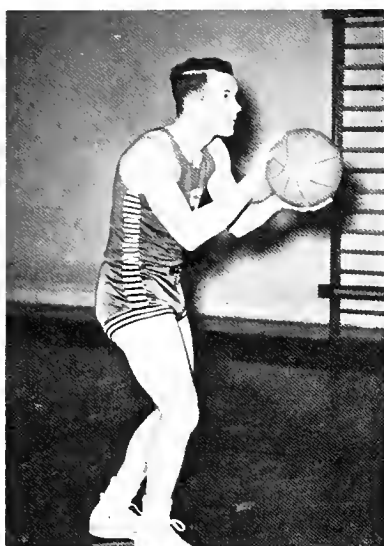

His activities were many and varied. He coached, trained and instructed in the fields of fencing, boxing, football, soccer and swimming. Furthermore he was an outstanding athlete in his own right, having been a professional player on the famous Scottish first division soccer club, Kilmarnock, in the year 1920. His soccer playing in North American earned him the honor some twelve years ago, of being chosen in a poll conducted by Canadian Sports Writers, as the fourth greatest player in Canada in the previous fifty years.

Until his retirement in 1953 he gave of himself unsintingly. A number of students gained individual fame under his direction. Many more gained benefit from his unselfish devotion to their recreational needs. All of them, many now in far flung places, doubtless have nostalgic memories of their old meeting place, his office, always overflowing with an assortment of athletic gear and good fellows, where presided that shining example of good sportsmanship known affectionately to the faculty and students alike as "Hughie".

The B'nai B'rith Hillel Foundation University of Saskatchewan

THE B'NAI BRITH HILLEL FOUNDATION

Purposes and Organizations

Hillel bears the name of the beloved gentle sage who lived in the first century B.C. His name is associated with his teachings of love of fellow-man, devotion to peace and justice, and dedication to learning.

The Hillel Foundation are dedicated to the ideals of Rabbi Hillel and today serve more than 150,000 men and women on 200 college and university campuses from the Canadian North to Havana in the Caribbean to the Hebrew University in Jerusalem.

Every Hillel Foundation operates under the guidance of a director who is usually a Rabbi. The Hillel Foundations function democratically under the guidance of the Hillel director through elected student councils and student committees which are in charge of the various phases of the Hillel program.

Hillel's sevenfold program includes:

1. Religion
2. Culture
3. Fellowship
4. Interfaith
5. Community Service
6. Personal Service
7. Leadership Training

Hillel aims to preserve Jewish values for its students, preparing them for effective participation in the life of the Jewish and Canadian community.

The general purpose of the Hillel program is to create a Jewish student community aware of its Jewish background and to prepare it for the assumption of adult Jewish responsibilities.

Hillel is but ten years old on the campus of the University of Saskatchewan although the national organization is some thirty years old. The Foundation is sponsored by the B'nai Brith Jewish Men's Service Club. The Sask. Foundation is comprised of some 40 members and is thought to be the smallest established Foundation in the Hillel "Family". Despite its comparatively small size, it compares favorably with many of the larger foundations particularly with respect to member participation and broad scope in program.

Religious

Festival observances.

Socials

1. Hosts to Alberta-Saskatchewan Convention.
2. Delegates to Manitoba-Minnesota Convention.
3. Bi-monthly social.

Rhodes Scholar

TOM POWRIE

The Rhodes Scholarship was awarded to an Agriculture student for the first time at this University. Tom was enrolled this year in economics in the College of Graduate Studies.

Back Row (left to right): John Weaver (Social), Dennis Brown (Publicity), Maqbul Coleb (Treas.), Bernordo Ossa (P.R.O.).

Front Row: Des McConnell (V.P.), Constantine Zelenko (Pres.), Carl Chiko (Ed Director).

Missing: Olive Cwiak (Sec.), Mickey Hannay (WUS).

A few years ago the International Students' Club set out to bring students who came from all parts of the world into an organizational relationship which promoted understanding. At present, over 60 members representing 28 countries, many different civilizations, races and religions have learned by means of personal contact about the problems, ideas and aspirations of other peoples.

Today with modern technological developments, the world has shrunk enormously and the problems of many nations and peoples have become greatly inter-related. The object of the club is to bring all international students and interested Canadians together, and in this way contribute to the great cause of international understanding and co-operation.

The activities of the club in the past year have included an International Tea; a Christmas reception; a very successful International Dinner followed by a program; meetings with talks, lectures, discussions, films and panel discussions; and close contact with many downtown clubs and organizations for which the club provided speakers on many occasions.

The successful year enjoyed by the International Students' Club has helped to foster a firsthand knowledge of the peoples of various countries, their great variety of cultures and the contrasts between their modes of thought. Only in this way is international understanding achieved.

International Students Club

Back Row (left to right): Raman Shlonka (Prog. Com.), Poul Hleck (P.R.O.), Constantine Zelenka (Greystone), Dimitro Cipiwnyk (Treas.)

Front: Ben Gulak (Vice Pres.), Roma Stratychuk (Social), Walter Kostyshyn (President), Marlene Kuryluk (Sec.), Bill Phillipow (Membership).

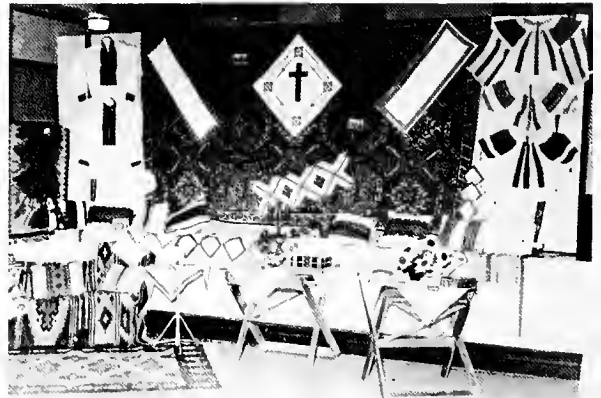

Missing: Boris Sen (Historian).

Alpha Omega Society

The Alpha Omega club, a non-sectarian, non political association of Ukrainian students on the campus, is designed to perpetuate the Ukrainian cultural heritage by means of various activities. The activities of the club in the past year have included an exhibition of Ukrainian art, books, and paintings; an opening dance, a sleigh-riding party, a bowling party, and a tea; and lectures by guest speakers.

Today, Canada's culture is a bright mosaic composed of many ethnic groups, each one contributing its share. By retaining the Ukrainian cultural heritage, the Alpha Omega club attempts to do its part to make the Canadian Culture an even richer one. In speaking to the club, Professor G. W. Simpson, head of the History Department and honorary president of the club, once said, "A group feeds on its traditions as an individual feeds on his memories. A man without a memory cannot act intelligently . . . an intelligent group feeds on its past."

Newman Club Candids

The Newman Club executive: Lucille Gagne, social; Paul Fritz, social; Cece Kaller, pres.; Fr. O'Donnell, chaplain; Bill Lambert, sec.-treas.; Rita Gillies, vice-pres.

A favorite event at The Bessborough is Saturday Night Supper Dancing during the winter. Make up a party and come often.

C. FINLAY, Manager

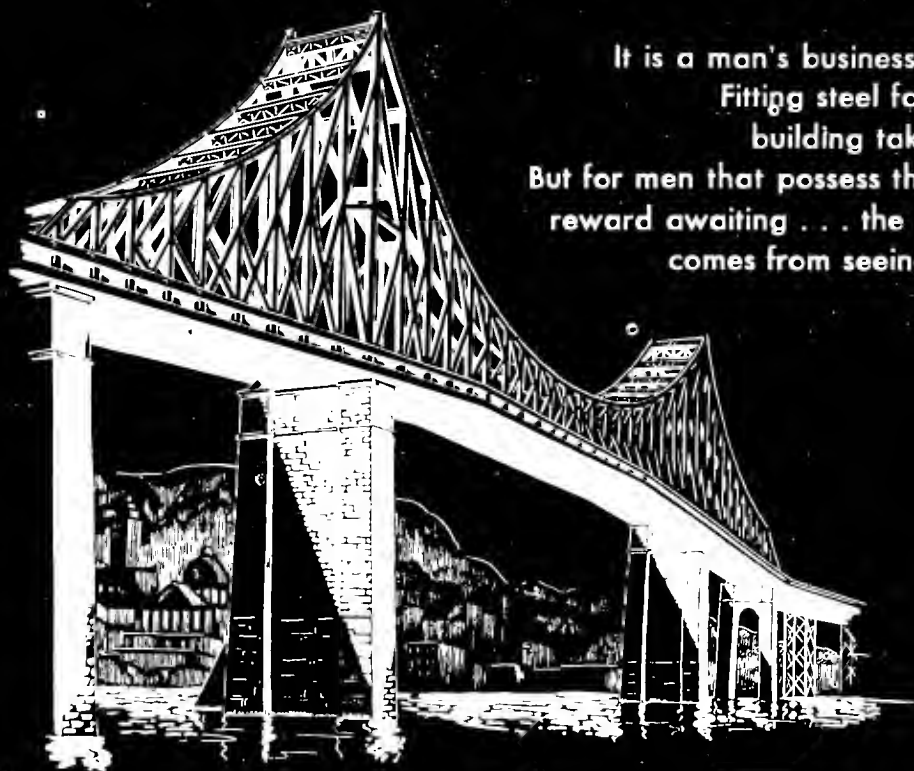

STEEL

... the stuff
dreams are made of ...

Steel without form is a commodity without purpose . . . like paint without the artist to give it expression. And the form of steel, too, starts with the mind. It takes shape sometimes on a flash of intuition; a mere wisp of an idea, a thought; but most frequently perhaps, on hard thinking knowingly applied.

It is a man's business, but not necessarily for all men. Fitting steel for its mighty part in industry and building takes imagination, foresight, vision. But for men that possess these qualities there is a singular reward awaiting . . . the peculiar, lasting satisfaction that comes from seeing dreams come true . . . in steel.

Opportunities exist in the steel industry for young engineers, draughtsmen and designers. Making contact with any of the companies listed below will bring you full particulars.

ALWAYS LOOK TO IMPERIAL FOR THE BEST

BALANCE

*...in Curling as in Gasoline means
BETTER PERFORMANCE!*

Every curler knows that perfect balance is the keynote in making a good shot. The proper back swing, the correct delivery, the right weight distribution, even the length of slide in your follow through is important if your stone is going to draw to the button every time. And in Imperial Esso and Esso Extra Gasolines, you'll find a perfectly balanced combination of instant starting, smooth flowing power and lively acceleration . . . a perfect balance that always means *better performance*.

IMPERIAL OIL LIMITED

*Extends best wishes to the
faculty and agricultural gradu-
ates of 1955.*

A CHALLENGE TO YOUTH

The romance of the Canadian prairies is irrevocably associated with the vision, the courage, and the ingenuity of its freedom-loving pioneers.

Theirs was the pride of ownership—the pride of achievement—the pride of free action in carving out a future for their children and their children's children for generations to come.

The pride of ownership still remains but the pride of free choice and free action has almost disappeared in the maze of governmental controls.

THE ROMANCE of the West's oil and mineral discoveries and the growth of industry have lured many young people from prairie farms — attracted by a freedom that seemed to have been lost at home. This migration from the land should not continue.

Herein lies a challenge for leadership to the agricultural students now graduating from our great universities. In their application of scientific knowledge may they recapture for this great industry the basic freedom of choice and of action that served as an inspiration to the pioneers and early farm leaders.

FLOWERS FOR ALL OCCASIONS

The Romance of Joe Caterpillar

*Ten Cantos numerically disposed that yow wille eek
yfynde; in what array that they are inne and thence
to what design.*

Canto Firste

Presenting Joe

Up in the morning at 6:45
He could be happy if he could survive,
In a paradise built for his personal pleasure,
An anarchist worm in a world without measure.

The first indication of dissatisfaction
Emerged as a psycho-neurotic reaction,
He first had a feeling a little inferior
Then suffered a pain in his dainty posterior.

Now if you have the symptoms you'd better act
quick,
As you're not very sane if you're mentally sick,
Good beginning, good end, but good heavens
above,
This poor little fellow had fallen in love.

Congratulations....

The Romance of Joe Caterpillar

Canto Two

Relatynq the utmost virtu and extraordinary beuty of the ladye.

Oh, she was timid and she was cute,
Character, fun and good-looking to boot.
Her hair was like silver, and legs were knee action
The latest device to drive males to distraction.

With a purity, grace and composure symbolic
She didn't smoke, chew and was non-alcoholic.
In addition she sported a bright shiny nose
Which she could turn green as occasion arose.

Beatrice though didn't want to rub noses
Preferring to be with the bluebells and roses.
In addition she sported a bright shiny nose
Which she could turn green as occasion arose.

The Romance of Joe Caterpillar

Canto Three

*Whereby Joe effays the onflaught of a fair dam-
fel and is fburned.*

With spiricals heaving and eyes filled with tears,
Little Joe would cajole her with nice souvenirs.
But Beatrice said that if he couldn't sing
He wouldn't be useful for any darn thing.

With some caterpillars, love's hasty and quick,
With others, it makes them romantic and sick,
But this little fellow wasn't any of these,
He had fallen in love with a hairy deep freeze.

Now Joe was completely in love with his friend
And when love refused, contemplated life's end,
For days he communed with a hungry horned toad
And threatened to be robin pie a la mode.

ENGINEERING
unlimited...

● In engineering, the sky's the limit today at Canadian Westinghouse. The never-ending demand for more advanced electrical and electronic devices for the homes, industries and defence services of Canada, coupled with a steadily broadening engineering horizon, gives virtually unlimited scope for the talents of the Westinghouse corps of engineers.

If you are an undergraduate in electrical, mechanical or electronic engineering—if you would like to build a stimulating and rewarding career, working with leaders in your profession in one of the largest and fastest-growing engineering organizations in Canada . . . get in touch with Westinghouse, where constant progress is always making new opportunities for engineers.

The Romance of Joe Caterpillar

Canto Yfour

Whereby Joe ferams.

After threats and persuasion had been at a loss,
To show that Beatrice wasn't the boss,
With a soulful last nod from the tip, of his tail,
Little Joe started out on a perilous trail.

Now walking is not a preferred locomotion
And hitchhiking seemed a superior notion,
He met an old turtle who planned to vamoose
And latched himself on to a part not in use.

After numerous yards were traversed in this
fashion

And labour had used up a lot of his passion,
He hungrily climbed off his elegant carriage
Relinquishing all thoughts of love and of
marriage.

HOW THAILAND RICE MAKES DOLLARS FOR CANADIANS

Those big red Canadian-made Self-Propelled Combines that bring in the rice harvests of Thailand, Burma, India, Brazil and other far-off places not only help carry the name of Canada and Massey-Harris to over one hundred countries of the world—but bring back dollars to help keep Canadians prosperous. Because of the additional production in its Canadian factories, resulting from sales in these remote

lands, Massey-Harris-Ferguson in 1953 spent in Canada for wages, goods and services \$42,000,000 more than it received for its total sales in Canada of Canadian-made goods.

Thus has Massey-Harris-Ferguson created a greater market for the products of Canadian mines, forests and factories. This means more Canadian payroll dollars—to enable all Canadians to enjoy a high standard of living.

MASSEY • HARRIS • FERGUSON LIMITED

Wherever big things are going on there you'll find the engineer

Wherever you go in Canada today, you see the work of the professional engineer. A river's course is changed and its rushing power harnessed for man's needs . . . an oil pipeline scales a mighty mountain range . . . a highway is punched through the rocky wilderness . . . and behind each mighty accomplishment stands the engineer.

Behind our many new industries, unknown a decade ago, as well as the unprecedented development of our natural resources—stands the engineer. His is the vision and the orderly thinking that is contributing so much to Canada's phenomenal expansion.

WE OF CANADIAN GENERAL ELECTRIC never forget that ours is essentially an engineering organization. We know that our progress depends on the constant recruitment of young engineers and are proud of the contribution we are making to their training.

Engineering graduates join this Company each year

Each year, since its earliest days, engineering graduates have joined this Company to continue their training in special courses—nearly twelve hundred have already gained invaluable experience on the Company's well-known "Test" Course.

The purpose of the course is primarily to ensure a constant supply of trained talent for this Company. A high proportion of the executives of this organization got their start on the "Test" Course.

The course over the years has also contributed a constant stream of highly-trained graduates to fill the ranks of Canadian industry. In fact, it is a source of pride that not a few of them are to be found today holding important positions in many widely diversified engineering fields.

Everybody benefits from the engineers' work

Canadian General Electric currently employs some eight hundred engineers

—that's one out of every eighteen employees—and is continually adding to their number. These men—whether they work as development, design, production, application, sales or service engineers, in the electrical, mechanical or chemical fields—are in the final analysis working for *you*.

They develop, design and manufacture the complex electrical equipment that generates power, transmits it across great distances, controls it and then puts it to work for the common good. They are constantly improving and simplifying existing products to increase their efficiency and lower their cost. They develop brand-new products to meet brand-new needs. In cooperation with our customers' engineers they design and install equipment to meet specialized needs—to raise productivity and to lower costs.

The engineers' part in Canada's rising prosperity

It is an important part of their work to find new methods of manufacture, and to develop new equipment and products that do more, last longer, cost less to operate. It is by employing outstanding engineers—the key men in Canada's progress—that we are able to play a worthy part in our country's industrial growth, and in the developments that are raising our living standards.

**CANADIAN GENERAL ELECTRIC COMPANY
LIMITED**

Canada's Oldest and Largest Electrical Manufacturer

the trickle that became a river!

The year was 1876. The shipment was wheat — Western Canada's first — and it tallied 857 bushels, 5 pounds.

The twelve farmers who made that shipment made history too, and from that day forward Western Canada took its place as a leading grain-producing area of the world.

To keep pace with this development, grain handling facilities have changed too.

Year after year, since 1893, National Grain has provided Western Canadian farmers with the most up-to-date facilities for marketing their grain.

The Romance of Joe Caterpillar

Canto Tye

*Wherein an Honourable and Learned Band of Ad-
venturers is yformed.*

Now a rebel's ambition is really quite hot
And soon quite a kingdom our little friend got;
A king over rogues bent on full devastation,
They carelessly roamed the whole of creation.

Freeborn adventurers, steadfast and true,
There was something of awe in the terrible crew.
A bogey to children, feared by the bold
All Nature turned pale when their story was told.

Our heroes led full lives, got fleshy and fat
And had lots of adventures for life is like that.
But Joe slowly tired of the glory and all
And evinced many signs of a change of life call.

The Romance of Joe Caterpillar

Canto Six

*Whereupon Joe forsaketh the companie to become
a finger of fongs.*

He rolled up one day as had not been his habit
Under a tree by the home of a rabbit.
And when he awakened he found in dismay
That his body was in a sad state of decay.

His thorax was scalded with salty green tears
And his mandibles shook like a lot of loose gears,
It was then that the little worm cursed his
barbarity
And pride that had nothing of faith, hope and
charity.

In humble repentence, he offered a dirge
It was the first time he had suffered the urge.
And suddenly swelling with spiracle air
He sang a few bars of a butterfly prayer.

The Romance of Joe Caterpillar

Canto Seven

*Wherein inevitable mischief befelle the Lady
Beatrice to her great undoing.*

Disregarding the protests of all of his crew
To the home of his bughood, the little moth flew,
In search of Beatrice, beautiful maid,
To offer his version of love's serenade.

Beatrice had not led a static existence,
But had followed a cycle with thorough
persistence,
No longer attractive from mere nose appeal,
She had also got fat and was starting to peel.

Joe found her lying beside an old stump
With eight pretty legs and a beautiful rump
A wing half unfolded and half wakened up,
She gracefully rose and began to hiccup.

W. ROCKBOTTOM JONES

The Romance of Joe Caterpillar

Canto Eight

Joe espies his beloved and fixes her upper.

No longer was Little Joe charmed by her nose,
He was busy inspecting her beautiful clothes.
A robe of deep red with black dots all bespeckled
And a face like an oyster majestically freckled.

Her legs when unravelled were covered with hair
But a lot of her body was shamelessly bare,
And on top of her head was a shocking surprise,
Two TV receptors and three radar eyes.

The Romance of Joe Caterpillar

Canto Nynë

Whereby Joe sings sweet songs of lyrical fpleandour.

As gossamer thread on a fairyland loom
And fragrant as flowers when they are in bloom,
Like a heavenly body suspended in space,
Or the sound of soft music when lovers embrace;

As nectar enhancing the heart of a rose,
Undying poetry, lyrical prose,
Somnambulant goddess of wonder and awe,
Yet simple, unspoiled, like a beefsteak done raw.

WHAT DO WE MEAN,

"THE ALMIGHTY DOLLAR" ?

For you it may well be the first dollar you deposit in a **SAVINGS ACCOUNT**. As you add to it month by month and year after year, that dollar can develop into independence.

Follow the example of multitudes of alert Canadians who maintain
Savings Accounts with

SASKATCHEWAN GOVERNMENT TELEPHONES

The Romance of Joe Caterpillar

Canto Ten

*Wherein our yhero undertakes divers joynt and
federal obligations.*

Stroking her feelers, Joe sang her a song
And rubbing her nose he enticed her along,
Then in honeymoon haste they hurried to see
If they could be married IMMEDIATELY.

Translated from the works of Alistair H. Jake-
man by Geoffrey Chaucer 1955 Pater Noster
Row, W C 12.

GROWING WITH SASKATCHEWAN . . .

The year 1955 is Saskatchewan's Golden Jubilee Year. During the present year we will be celebrating the incorporation of the Province, which occurred fifty years ago. Jubilee celebrations provide the opportunity to add up the accomplishments of the past and turn to the future with renewed faith in our social and economic goals.

Co-operatives are an integral part of the Saskatchewan scene. Many of our problems of growth have been met and overcome. Problems will arise in the future, but co-operative development has been and will continue to be a feature of the Saskatchewan scene. Co-operators are proud to play a part in Saskatchewan's development story.

Consumer Co-operatives have achieved a sales volume of \$450,000,000 since the organization of the wholesale in 1929. Earnings realized on this volume exceed \$25,000,000, with roughly half of this amount paid out in cash to individual consumers. Buying co-operatively means more cash and extra purchasing power in your community. We are proud to be growing with Saskatchewan.

Courtesy . . .

The contribution of the advertisers to this year book is of considerable importance. Without their aid the book could not assume the proportions that it does.

Many of the firms and organizations represented will never see any immediate return for their investment; others will.

May we always remember the courtesy they have done us and, when the occasion arises, respond in an equally generous fashion.
